SUMMARY

I'm a Computer Science student with a strong interest in coding and problem-solving. I've built real-world projects involving both frontend and backend development, and I enjoy exploring new technologies. I'm eager to keep improving my skills and gaining practical experience.

EXPERIENCE

- Project Lead – Dhvani (Music Website Project)
- Led the development of a full-stack music web application
- Managed frontend and backend tasks using React.js, Node.js, MySQL, and Java
- Coordinated with team members, assigned tasks, and ensured timely delivery

EDUCATION

- B.Tech in Computer Science & Engineering | KL University (08/2023 – 05/2027)
- Intermediate | Narayana Junior College (06/2021 – 05/2023)
- SSC | Sri Chaitanya Educational Institutions (06/2020 – 05/2021)

INTERNSHIP

- AI & Data Analytics Virtual Internship (Green Skills)
Organized by AICTE, Shell India, and Edunet Foundation under Skills4Future
Duration: 15th July 2025 – 16th Aug 2025 (4 weeks)
 - Worked on Artificial Intelligence and Data Analytics projects focused on sustainable solutions.
 - Gained hands-on experience in applying AI techniques for real-world use cases.
 - Enhanced teamwork and problem-solving skills through project-based learning.

STRENGTHS

- Problem-Solving
- Full-Stack Development
- Continuous Learning
- Team Collaboration
- Leadership
- Adaptability

CERTIFICATIONS

- NPTEL - Introduction to C (Fundamentals of the C programming language)
- freeCodeCamp - Responsive Web Development (Responsive design techniques)
- Linguaskill Certification – Demonstrating proficiency in English
- Forage – Deloitte Australia, Data Analytics Job Simulation

SKILLS

C, CSS, Data Structures, Eclipse, GitHub, GUI, HTML, Java, JavaScript, Microsoft Power BI, Python, React, Visual Studio Code, Node.js, Responsive Web Design

PROJECTS

- Dhvani - Music System
 - Full-stack web application to play songs and explore artists.
 - Technologies used: React.js, Node.js, MySQL, Java
- Hotel Room Booking Website
 - Responsive website for booking hotel rooms.
 - Technologies used: HTML, CSS
- Banking Customer Record Management System
 - Managed customer records with quick retrieval using hash tables.
 - Technologies used: C Data Structures
- Mini Voting System
 - Real-time voting system for small events.
 - Technologies used: C Programming
- Currency Converter with GUI Interface
 - GUI-based tool for currency conversion.
 - Technologies used: Java GUI
